As our youth share their journeys from “What If?” to accomplishments they never thought possible, your presence reminds them that they can have support and hope for a brighter future.

Founded in 2000, FLY is an award-winning Bay Area nonprofit that interrupts the pipeline to prison and supports youth on their path to healthy, free, and productive lives. Each year, FLY’s signature events bring our young people together with the community in a celebration of transformation, generosity, and love.
